An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, lines 9-10, "(2) The flow distributor of claim 1 than about 10%." has been deleted.

In claim 4, line 2, ", preferably from about 0.95" has been deleted.

The following two new claims have been added:

- - 11) The flow distributor of claim 1 wherein the amount of surface area of the bottom face of the flow distributor that is used to secure the bed support is less than about 10%.

12) The flow distributor of claim 1 wherein the ratio of active flow distributor surface area to the entire surface area of the column bed it is about 0.9 to about 0.95. - - .

Authorization for this examiner's amendment was given in a telephone interview with John Dana Hubbard on April 13, 2005.

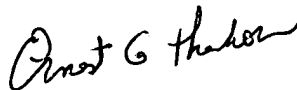

The following is an examiner's statement of reasons for allowance: Davies (U.S. Patent No. 6,224,760), Joseph (U.S. Patent No. 5,324,426), and Ritacco (U.S. Patent No. 4,582,608) are considered to be the closest prior art because Davies (U.S. Patent No. 6,224,760) and Joseph (U.S. Patent No. 5,324,426) disclose similar devices and Ritacco (U.S. Patent No. 4,582,608) discloses a disperser part. The case has been allowed because the recited combination of elements would not have been obvious

from Davies (U.S. Patent No. 6,224,760), Joseph (U.S. Patent No. 5,324,426), and Ritacco (U.S. Patent No. 4,582,608).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to E. Therkorn at telephone number (571) 272-1149. The official fax number is (703) 872-9306.
